Re: Closure of GATC

Dear Mr. Antonetti:

We have received your certification dated May 18, 1987, that total closure has been completed as outlined in the approved closure plan for General American Transportation Corporation, Plant No. 1. With the receipt of this certification, total closure is complete as required by 320 IAC 4.1-21.

General American Transportation Corporation originally notified the U.S. Environmental Protection Agency (EPA), Region V, as a hazardous waste treatment, storage, and disposal facility with the following hazardous waste activities: generation and storage. The approved closure plan indicated that all of the previously listed hazardous waste activities have been eliminated.

If you have any questions about this letter, please contact Ms. Jill Stevens at AC 317/232-3243.

Sincerely,

Jane Magee
